

Emily Carr Rose

Rosa 'Emily Carr'

Height: 3 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 3a

Group/Class: Canadian Artist Rose

Description:

The newest introduction from the brand new Canadian Artists series, this upright disease-free rose produces an abundance of large, deep-red roses all season long; cold-hardy; requires full sun and well-drained soil.

Ornamental Features

Emily Carr Rose is blanketed in stunning dark red flowers at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green foliage throughout the season. The glossy oval compound leaves turn yellow in fall. The fruit is not ornamentally significant.

Landscape Attributes

Emily Carr Rose is a multi-stemmed deciduous shrub with a ground-hugging habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Emily Carr Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Emily Carr Rose will grow to be about 3 feet tall at maturity, with a spread of 4 feet. It has a low canopy. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
