# Morden Fireglow Shrub Rose Rosa 'Morden Fireglow'

Height: 3 feet

Spread: 30 inches

Sunlight: 0

Hardiness Zone: 2a

Group/Class: Parkland Rose

# **Description:**

This unique hardy shrub rose features rare scarlet orange flowers in 1-5 clusters from early summer into fall on a vigorous, upright form; makes a fine color accent for the garden; needs full sun and well-drained soil.

#### **Ornamental Features**

Morden Fireglow Shrub Rose is clothed in stunning tomato-orange flowers with a scarlet reverse at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall.

### **Landscape Attributes**

Morden Fireglow Shrub Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Morden Fireglow Shrub Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

## **Planting & Growing**

Morden Fireglow Shrub Rose will grow to be about 3 feet tall at maturity, with a spread of 30 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
